

Feeding the Poor in Nigeria

Bismillah Ar Rahman Ar Raheem,

The town of Auchi in the Edo State of Nigeria has been devastated by huge ditches and the town is on the verge of collapsing. The ditches have caused homes to be ruined and lives have been lost with treacherous transport conditions. The town is already poor and these conditions have made it even harder for the people to get food and vital necessities.

Help provided

MPR teamed up with the World Art Games Nigeria (WAGN) to distribute food to the poor in the Iyekhei Quarters in the town from 29th October to 1st November 2011. They were provided with cooked food, consisting of rice and fish for the first 2 days and then uncooked food was distributed for the other 2 days, including tomato sachets. Alhamdulillah on each day we were able to feed more than 120 people including men, women and children.

The supporting pictures show the food being prepared and distributed.

Please continue supporting MPR so we can continue with more projects like this.

JazakumAllahukhayran,

MPR Team UK
